Narratives

Summary of Distribution and Uses of NSP Funds:

ACQUISITION/REHABILITATION/RESALE

This program allows NSP funds to be used for the acquisition and rehabilitation of qualifying single-family homes to the City's rehabilitation standards, and selling them to income eligible home buyers. The City of Hemet is so affordable that some residents with a household median income below 50% will qualify for home ownership.

ACQUISITION/REHABILITATION/RESALE LH25

The City of Hemet is so affordable that some residents with a household median income below 50% will qualify for home ownership.

ACQUISITION/REHABILITATION/RENTAL

This program allows NSP funds to be used for the acquisition and rehabilitation of qualifying multi-family properties to the City's rehabilitation standards, and then partnering with the Hemet Community Land Trust to manage the rental of units for the benefit of households at or below 50% median income.

HOME BUYER ASSISTANCE LOANS

Funds from this activity will provide a loan to qualified home buyers for down payment and/or closing costs. Many times the home buyers earn enough money but do not have the sufficient down payment and closing costs needed. The NSP loan will bridge that gap and make it easier for home buyer to qualify. This activity strongly supports the ARResale effort because without a qualified home buyer at the end of the rehabilitation process, the homes are susceptible to vandalism and theft. This activity focuses on increasing the number of home owners in a neighborhood thus bringing more stability.

ACQUISITION/DEMOLITION/LANDBANK/REDEVELOPMENT

In certain instances, the condition of specific units may warrant demolition instead of rehabilitation. A primary basis would be the proposed cost of rehabilitation. In such cases, staff would consult with the City's Building Official regarding the structural soundness of the house. If deemed appropriate, demolition would occur. Plans to develop the parcel as an in-fill unit or units would commence as soon as practicable. Several redevelopment options would be considered. One option would be to sell the parcel to Habitat for Humanity for \$1 for their next new construction project; another option would be to make it available to a non-profit for special needs housing. Other possible uses under this activity type might include vacant, foreclosed properties that allow for the expansion or improvement of a commercial use, park or public facility.

Between the time of demolition and new construction, the sites would be land banked. The City will maintain the sites and in some cases consolidate adjacent parcels.

ADMINISTRATION

City of Hemet - Administrative costs incurred in the management and implementation of the NSP3 program.

Civic Stone - Provide staffing and other resources as required to assist the Hemet Housing Authority (HHA) staff to perform management services related to programs created under the NSP3 as specified in the Agreement for Consultant Services between the Hemet Housing Authority and Civic Stone, Inc.

How Fund Use Addresses Market Conditions:

ACQUISITION/REHABILITATION/RESALE

Funds from this activity will target homes that require rehabilitation beyond what the market will bear without NSP assistance. Once rehabilitated, the homes will be sold to income eligible buyers with a one year warranty. This Activity focuses funds into an older area of the City with homes that require a substantial amount of rehabilitation. This target area also has the highest concentration of foreclosures in the City. The ARResale funds will directly combat this statistic by a pro-active approach in rehabilitating these distressed homes and selling them to qualified home buyers.

ACQUISITION/REHABILITATION/RENTAL

Funds from this Activity will target properties that require rehabilitation beyond what the market will bear without NSP assistance; either 2-4 unit properties or a small apartment complex. Once rehabilitated, the units will be transferred to and managed by Hemet Community Land Trust. Hemet is an area with a great need for rental housing because of a high unemployment rate (Hemet 14.3%; CA 12.5%) combined with households with foreclosure histories.

HOME BUYER ASSISTANCE LOANS

This activity benefits both the income-qualified household as well as the neighborhood. The low-income household is able to afford a nice, rehabilitated home instead of renting. The surrounding areas are improved because the dilapidated houses are fixed; resulting in higher neighborhood home values. Furthermore, the area is more stabilized by home ownership instead of absentee investor rental properties.

Ensuring Continued Affordability:

While ARResale initially provides loans to Developer Partners for the acquisition of eligible homes, it does so with an affordability covenant recorded against the property. The covenant ensures that the Developer Partner can only sell the home to an income eligible home buyer.

Definition of Blighted Structure:

The City of Hemet uses the State of California's definition of blight as found at California Health & Safety Code Sections 33030 & 33031. 33030.

(a) It is found and declared that there exist in many communities blighted areas that constitute physical and economic liabilities, requiring redevelopment in the interest of the health, safety, and general welfare of the people of these communities and of the state.

(b) A blighted area is one that contains both of the following:

(1) An area that is predominantly urbanized, as that term is defined in Section 33320.1, and is an area in which the combination of conditions set forth in Section 33031 is so prevalent and so substantial that it causes a reduction of, or lack of, proper utilization of the area to such an extent that it constitutes a serious physical and economic burden on the community that cannot reasonably be expected to be reversed or alleviated by private enterprise or governmental action, or both, without redevelopment.

(2) An area that is characterized by one or more conditions set forth in any paragraph of subdivision (a) of Section 33031 and one or more conditions set forth in any paragraph of subdivision (b) of Section 33031.

(c) A blighted area that contains the conditions described in subdivision (b) may also be characterized by the existence of any of the following:

(1) Inadequate public improvements.

(2) Inadequate water or sewer utilities.

(3) Housing constructed as a government-owned project that was constructed before January 1, 1960.

33031.

(a) This subdivision describes physical conditions that cause blight:

(1) Buildings in which it is unsafe or unhealthy for persons to live or work. These conditions may be caused by serious building code violations, serious dilapidation and deterioration caused by long-term neglect, construction that is vulnerable to serious damage from seismic or geologic hazards, and faulty or inadequate water or sewer utilities.

(2) Conditions that prevent or substantially hinder the viable use or capacity of buildings or lots. These conditions may be caused by buildings of substandard, defective, or obsolete design or construction given the present general plan, zoning, or other development standards.

(3) Adjacent or nearby incompatible land uses that prevent the development of those parcels or other portions of the project area.

(4) The existence of subdivided lots that are in multiple ownership and whose physical development has been impaired by their irregular shapes and inadequate sizes, given present general plan and zoning standards and present market conditions.

(b) This subdivision describes economic conditions that cause blight:

(1) Depreciated or stagnant property values.

(2) Impaired property values, due in significant part, to hazardous wastes on property where the agency may be eligible to use its authority as specified in Article 12.5 (commencing with Section 33459).

(3) Abnormally high business vacancies, abnormally low lease rates, or an abnormally high number of abandoned buildings.

(4) A serious lack of necessary commercial facilities

Definition of Blighted Structure:

that are normally found in neighborhoods, including grocery stores, drug stores, and banks and other lending institutions.

(5) Serious residential overcrowding that has resulted in significant public health or safety problems. As used in this paragraph, "overcrowding" means exceeding the standard referenced in Article 5 (commencing with Section 32) of Chapter 1 of Title 25 of the California Code of Regulations.

(6) An excess of bars, liquor stores, or adult-oriented businesses that has resulted in significant public health, safety, or

welfare problems.

(7) A high crime rate that constitutes a serious threat to the public safety and welfare.

Definition of Affordable Rents:

For an NSP-funded rental activity, affordable rents shall be defined as the published HOME rents for the MSA of Riverside/San Bernardino/Ontario less utilities. Should any gap be present, funds for this gap will be required from other sources of funding.

Procedures for Preferences for Affordable Rental Dev.:

The jurisdiction certifies that it will abide by the procedures described in its NSP3 Abbreviated Plan to create preferences for the development of affordable rental housing for properties assisted with NSP3 funds.

Housing Rehabilitation/New Construction Standards:

The NSP funds will follow the City of Hemet's standards from the ongoing Housing Rehabilitation Programs (funded from HOME and CalHOME): At a minimum, all health and safety issues and all violations to local codes, ordinances, and zoning requirements shall be corrected. In addition, the Uniform Building Code, the National Electrical Code, the Uniform Plumbing Code, the Uniform Mechanical Code, Title 25, and Chapters 5-10 of the Uniform Housing Code, ADA, Section 504, and relevant sections of Titles 24 which pertain to disability access shall be satisfied as part of the rehabilitation. In addition to requiring that the building be brought into compliance with applicable codes, the Program requires specific additional upgrades in all projects. These include: upgrade of electrical equipment grounding and bonding system; GFCI replacement in kitchen, bathroom and exterior areas; fire extinguishers; smoke detector upgrade to current Uniform Building Code; and installation of carbon monoxide detectors; and exterior painting, if needed. All disabled access improvements, emergency repairs or weatherization. All work performed must comply with the rehabilitation standards.

Energy Conservation

In addition to repairs required because of code violations, the borrower(s) may request that loan proceeds be used to upgrade the property to meet energy conservation standards.

Lead Based Paint Repairs

Control or abatement of defective lead based paint surfaces will be included in the property rehabilitation where applicable. A lead based paint inspection report may be required of any home built before 1978.

Asbestos Removal

Removal of materials containing asbestos, if necessary, will be included as part of the property rehabilitation.

Other Eligible Improvements

In addition to the above noted eligible improvements, program funds are available for rehabilitation improvements that are physically attached and permanent in nature

as follows:

1. Repairs that remedy existing nonconforming uses such as garage conversions, additions, etc.
2. Exterior work to help preserve or protect structures, roofing, siding (if significantly damaged), re leveling, bracing (including earthquake bracing), repair/replacement of screens/windows, doors and door locks, structural and/or foundation damage, replacement of deteriorated attached porch and step structures (i.e., mobile home porches made of plywood).
3. Interior work to make a structure more livable and repair/replace/restore important parts such as plumbing (i.e., re pipe and replacement of fixtures), damaged flooring, faulty or inadequate heating/cooling systems, inoperable built in appliances, damaged ceilings, water heaters, electrical wiring and service, painting (if walls are water damaged).
4. Weatherization and energy conservation items such as insulation, caulking, weather stripping, if all health and safety code violations have been corrected.
5. Fumigation and treatment of termites and pest control.
6. Modifications which aid the mobility of the elderly and physically disabled such as shower units with seats, lever hardware, retrofitting toilets to achieve adequate height, moving power points and light switches, ramping, reconstructing doorways, lowering sinks in kitchens and bathrooms. All health and safety c

Housing Rehabilitation/New Construction Standards:

code violations must be corrected to be eligible for disabled access improvements and emergency repairs. Testing for the presence of lead based paint and associated abatement, as required. (Any costs associated with abatement of lead based paint will be processed as a part of the loan.)

Incipient repair items (i.e. household appliances, furnaces that are likely to fail within a few years) may be eligible for replacement if the item is replaced with one of moderate quality only. Owners medical conditions may warrant new or replacement appliances.

Ineligible Improvements

1. Repair, purchase or installation of kitchen appliances, which are designed and manufactured to be freestanding.
2. Recreational items such as barbecues, bathhouses, greenhouses, swimming pools, saunas, television antennas, tennis courts.
3. Luxury items such as burglar alarms, burglar protection bars, dumbwaiters, kennels, murals, flower boxes, awnings, patios, decks and storage sheds/workshops, microwaves, dishwashers.
4. Other items deemed ineligible by the City Housing Representative or his/her designee.
5. If any changes that are made without City approval the contractor will not be paid for the work.

Vicinity Hiring:

The jurisdiction certifies that it will, to the maximum extent feasible, provide for hiring of employees that reside in the vicinity of NSP3 funded projects or contract with small businesses that are owned and operated by persons residing in the vicinity of NSP3 projects.

Overall Progress Narrative:

This program has allowed the City of Hemet to purchase and rehabilitate 6 properties successfully placing low income families into some of their very first homes. While boosting morale, the City has been able to revitalize the community and stabilize neighborhoods all while meeting the HUD national guidelines.

One of the largest projects the City has taken part in is with the assistance of the Riverside Housing & Development Corporation (RHCD), a HUD approved, non-profit affordable Housing Corporation. They have worked long and hard throughout and into completion of the Greystone Apartment Project (formerly

known as the Mobley Lane Project). This project meets the City's obligation to rent housing to households at 50% of the area median income or below. A grand opening celebration was held on February 9th, 2017 for our City Manager and City Council to come and see the finished project. The City is anticipating the completion of the project in late November of 2016 in which there will be a celebration for the City Council and dignitaries to come and see the finished project. The outcome has had a tremendous impact on blighted neighborhood and now offers a total living area of 10 buildings that house 40 low income units, approximately 32,900 square feet in total. The entire project is filled at 100% capacity.

One property remains on our register. This property held a structure that had to be demolished and is now a vacant piece of land. The City has an appointment scheduled with Habitat for Humanity to partner up and transfer the land for them to develop housing for low income families and meet the national objective under NSP.

Upon completion of this transfer, the program will begin the final closeout.
