

***2023 Consolidated Annual Performance and Evaluation Report  
(CAPER)  
DRAFT***

***City of Hemet  
445 E. Florida Avenue  
Hemet, California 92543  
(951) 765-3722***

## **CR-05 - Goals and Outcomes**

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Hemet desires to increase self-sufficiency and economic opportunity for lower income residents and individuals with special needs through utilization of CDBG and CDBG-CV grant funds following the City's priority needs; to enhance affordable home ownership and affordable rental housing; to improve existing infrastructure or facility projects; to fund infrastructure projects through enhancement of public facilities; to support the local Continuum of Care to aid homeless persons and families, and to end chronic homelessness; to provide supportive services for persons with special needs, including youth, elderly, and persons with disabilities. The completion of this fourth year of the five year 2020-25 Consolidated Plan has had the following accomplishments:

- Completion of Street Repaving in HUD Census block/tract that is low-to moderate income.
- Care-A-Van Transportation assisted 310 unduplicated clients with transportation services
- Hemet Police Department Police Explorers program had 18 youth participate in the program that assist young people interested in learning about law enforcement.

This fourth year of the Consolidated Plan activities were picking up and subrecipients project activities were stabilizing. Table 1 – Accomplishments reflects the actuals during 2023-2024 program year.

### **Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Code Compliance	Affordable Housing Public Housing Code Enforcement	CDBG: \$158,711.00	Housing Code Enforcement/Foreclosed Property Care	Household Housing Unit	20,792	0	0.00%	20,792	0	0.00%
Fair Housing	Affordable Housing Non-Homeless Special Needs	CDBG: \$43,000.00	Other	Other	1,700	1,963	116.0%	1,700	1,963	116.0%
Homeless Prevention	Affordable Housing Homeless Non-Homeless Special Needs Non-Housing Community Development	CDBG: \$25,000.00	Homeless Person Overnight Shelter	Persons Assisted	200	248	124.0%	200	248	124.0%
Homeless Prevention	Affordable Housing Homeless Non-Homeless Special Needs Non-Housing Community Development	CDBG: \$15,091.00	Homelessness Prevention (Community Pantry)	Persons Assisted	220	1,697	772.0%	220	1,697	772.0%

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Infrastructure and/or Public Facilities	Non-Housing Community Development	CDBG: \$228,085.04	Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit	Persons Assisted	87,081	85,000	98.0%	87,081	85,000	98.0%
Senior and Disabled Home Repair Program	Affordable Housing Non-Homeless Special Needs	CDBG: \$50,000.00	Homeowner Housing Rehabilitated (ADA Program)	Household Housing Unit	8	6	75.0%	8	6	75.0%
Senior and Disabled Home Repair Program	Affordable Housing Non-Homeless Special Needs	CDBG: \$199,778.00	Homeowner Housing Rehabilitated (Senior Disabled Home Rehab)	Household Housing Unit	22	12	55.0%	22	12	55.0%
Senior and Disabled Home Rehab Program	Affordable Housing Non-Homeless Special Needs	CDBG: \$200,000.00	Homeowner Housing Rehabilitated	Household Housing Unit	40	8	20.0%	40	8	20.0%
Planning and Administration	Planning and Administration	CDBG: \$122,455.20	Other	Other	No statistics are recorded for Planning and Administration					
Support Services	Non-Homeless Special Needs Non-Housing Community Development	CDBG: \$99,091.00	Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	1,330	691	52.0%	1,330	691	52.0%

**Table 1 - Accomplishments – Program Year & Strategic Plan to Date**

**Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

Hemet is committed to the overall goal of the Community Development Block Grant, which as a community planning and development program, is to develop viable urban communities by providing decent housing, a suitable living environment and expanding economic opportunities principally for low- and moderate-income persons. The goal of the City of Hemet, with funding from CDBG, is to increase self-sufficiency and economic opportunity for lower-income residents and individuals with special needs so that they can achieve a reasonable standard of living. This CAPER is a detailed description of efforts to provide new or improved availability/accessibility, affordability, and/or sustainability of these goals within the City of Hemet.

As listed in the Accomplishments table above, all CDBG funded activities address at least one of the goals listed in the City’s 2020-2025 Consolidated Plan and 2023 Annual Action Plan. Funding was directed toward the established priority needs of housing, public facilities & infrastructure, economic development, homeless prevention, and supportive services; providing 100% benefit to persons of very low, low, and moderate income. There were no CDBG-CV activity in FY 23-24. Additional accomplishment data is listed in Appendix D.

Based on the objectives and proposed uses of the CDBG and CDBG-CV funds as identified in the 2023 Annual Action Plan and subsequent substantial amendments submitted to and approved by HUD, evaluation of the activities completed indicates that the major goals of the CDBG program were met overall. Although the City is confident that the use of CDBG funds met the law and had a significant, positive impact on the lives of persons with very low, low, and moderate income, requests far outweigh resources which are not sufficient to address all of the needs of low- and moderate-income persons or special needs residents.

## CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG
White	862
Black or African American	266
Asian	15
American Indian or American Native	18
Native Hawaiian or Other Pacific Islander	3
<b>Total</b>	<b>1,164</b>
Hispanic	413
Not Hispanic	751

Table 2 – Table of assistance to racial and ethnic populations by source of funds

### Narrative

The demographics have been updated to reflect 2020 census data.

The racial and ethnic composition by percentage of the total population of the City of Hemet according to the 2020 census statistics ([www.census.gov](http://www.census.gov)) is: White 46%, Black or African American 10%, Asian 3% Hispanic 45% Non-Hispanic 37%

The racial and ethnic composition by percentage of the families assisted in Program Year 2023 by the CDBG grant fund is: White 74%, Black or African American 23%, Asian 1%, American Indian or American Native 2%, Hispanic 35%, Non-Hispanic 65%

The trend in Program Year 2023 reflects all racial and ethnic categories need assistance with CDBG grant funded services with the exception of Hispanic and Asian category. This data may not necessarily mean these two groups didn't need assistance.

## CR-15 - Resources and Investments 91.520(a)

### Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	1,726,120	1,330,985.75
Other – CDBG-CV	public - federal	1,078,302	404.95

**Table 3 - Resources Made Available**

### Narrative

There has been a slowdown on the number of CDBG-CV Hemet CARES Business Support grant applications being received since the initial implementation due to the cumbersome application process. There is remaining funds in this project and the City plans on expending all funds remaining. One application was approved and will be reflected in FY 24-25. There was a Substantial Amendment completed for a Street Repaving project in the amount of \$600,000. The street repaving were completed in HUD Census block/tract areas that are low-to moderate income.

### Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
City Wide	100	100	

**Table 4 – Identify the geographic distribution and location of investments**

### Narrative

The CDBG Program Year 2023, the fourth year related to the City’s 2020-2025 Consolidated Plan, was funded through the United States Department of Housing and Urban Development (“HUD”) beginning July 1, 2023 through June 30, 2024. Hemet was allocated \$827,276 from HUD.

The Other category of funding is the Community Development Block Grant - Coronavirus (CDBGCV) that the City of Hemet received in two out of the three rounds of funding made available. The total CDBG-CV funding received was \$1,078,302. Because the CDBG-CV funding allocation required substantial amendments to be submitted for the FY 20-21 Annual Action Plan, implementation of a few of the CDBG-CV projects were delayed. The number above reflects the total expended for the CDBG-CV allocation (not specifically for 2021). Remaining funds were rolled over to Program Year 2024 to continue the work. The main CDBG-CV project still in process is the Hemet CARES Small Business Support Program to assist small businesses affected by the pandemic. Details on accomplishment data is listed in Appendix D.

## Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

The projected resources needed for housing, community and economic development activities far outweigh the resources available to address these needs. To meet these challenges the City of Hemet seeks to leverage funding whenever possible from local, state, federal, and private sources. Many of Hemet's successful affordable housing projects, community facilities, infrastructure improvements and public service programs incorporate multiple funding sources. Although CDBG does not have a matching requirement, Hemet has leveraged a range of federal, state and local resources, including the State of California Housing and Community Development HOME funds, Mortgage Credit Certificates (MCC) administered by Riverside County, local utility conservation and energy efficiency programs administered by Southern California Edison and Southern California Gas, various state and federal transportation funding sources, the City's general fund and other local agency in-kind resources.

## CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	0
Number of Non-Homeless households to be provided affordable housing units	40	6
Number of Special-Needs households to be provided affordable housing units	30	18
<b>Total</b>	<b>70</b>	<b>24</b>

Table 11 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	0
Number of households supported through The Production of New Units	0	0
Number of households supported through Rehab of Existing Units	70	24
Number of households supported through Acquisition of Existing Units	0	0
<b>Total</b>	<b>70</b>	<b>24</b>

Table 12 – Number of Households Supported

### Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

Restructuring moved the Housing Rehabilitation activities to the Community Development Department, Housing Division in 2021. The Housing Program Specialist (HPS) left the City in program year 2022 and the position was vacant for several months. After a new HPS was hired, some rehabilitations were completed in program year 2023 until that HPS left their position and the position was vacant for 4 months at the end of fiscal year. An interim staff member was placed in the Housing Division to complete the end of the fiscal year.

Also, due to the ineffective marketing of the Rental Property Rehab program (RPRP) in prior program years, the grant allocation per household was increased for RPRP as well as the ADA and Senior Home Rehab program. The anticipated goals remained the higher number however, the number of homes completed were low. During the HUD monitoring of the Housing programs, the RPRP program will no longer be offered in program year 2024.

### Discuss how these outcomes will impact future annual action plans.

The need is great and the SDHR program is important. Staff will continue to work through all challenges to offer this very important program to aid low income elderly and disabled homeowners to remain independent and in their homes in a safe and secure structure. We do not anticipate a decrease in the projected number of homeowners to be aided in future program years. Although the change in staffing affected achieving the SDHR goal, the program was able to assist 12 homeowners in the program and 6 in the ADA Ramp and Lift Program.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

<b>Number of Households Served</b>	<b>CDBG Actual</b>	<b>HOME Actual</b>
Extremely Low-income	5	0
Low-income	11	0
Moderate-income	2	0
<b>Total</b>	<b>18</b>	<b>0</b>

**Table 13 – Number of Households Served**

### **Narrative Information**

In program year 2023, the Senior Disabled Home Rehabilitation program was able to assist 12 senior/disabled households with repairs to improve their home for sustainable livability. Ten (10) of the senior households were in the extremely-low and low income category. The total of 18 includes 6 homeowners assisted in the ADA Ramp and Lift program. Six (6) of ADA households were two were categorized as extremely-low and four were low income category.

**CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)**  
**Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

**Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

The Riverside County CoC has established chronically homeless persons as the highest need priority. To further this goal the Coordinated Entry System ("CES") has been implemented to guide homeless persons through the registration process regardless of age, gender, ethnicity, disability or other issues. Within the CoC there are several outreach teams from county, city and nonprofit agencies that cover geographic regions in Riverside or specific populations, such as the mentally ill, veterans, youth, and chronically homeless.

The City has contracted with City Net to provide homeless outreach and emergency bridge housing for those experiencing homelessness. The City Net services began December 2021. During fiscal year 2023-24, there were 890 client interactions, 672 clients enrolled, 268 positive exits, and 122 positive motel exits.

**Addressing the emergency shelter and transitional housing needs of homeless persons**

According to the HUD 2023 Continuum of Care Housing Inventory Chart, there are currently 1,489 year round emergency beds comprising of: 1,197 emergency shelter beds and 292 transitional housing beds in Riverside County. The goal is to utilize the Housing First approach adopted by the CoC which requires homeless being helped into permanent housing or rapid re-housing as soon as possible. Transitional housing programs and emergency shelters focus on lessening the time that a homeless person or family's length of time homeless (LOTH) is in the shelter by effective and quick assessment of homeless clients and getting them stabilized into permanent housing with intensive case management initially and support in the initial phase of residency in permanent housing. This period will serve as a time to address the other needs to maintain self-sufficiency either by accessing mainstream benefits, employment, or medical/mental health support.

**Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

The Riverside County Homeless Action Plan is aligned with the framework of the California Homeless Coordinating and Financing Council's Action Plan to Prevent and End Homelessness. The Riverside County incorporates the strategies of the County of Riverside CoC Board of Governance Strategic Plan adopted in 2020 with Five Action Areas.

1. Strengthening system to better prevent and end homelessness
2. Equitably address health, safety, and service needs of people experiencing unsheltered homelessness
3. Expand communities capacity to provide safe and effective shelter and interim housing
4. Expand and ensure equitable access to permanent housing in our communities
5. Prevent people from experiencing crisis of homelessness

The efforts are lead by Riverside County's Housing and Workforce Solutions Department (HWS) in collaboration with the County's Continuum of Care (CoC).

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

The Riverside County Homeless Action Plan also addresses working with law enforcement agencies and city attorneys through a collaborative plan to ease enforcement of ordinances relating to homeless encampments, developing a court process for homeless individual to resolve fines for old and new violations, and seeking other proactive solutions to end policies that perpetuate homelessness. This strategy is entitled: Support the Decriminalization of Homelessness (Strategy 16).

## **CR-30 - Public Housing 91.220(h); 91.320(j)**

### **Actions taken to address the needs of public housing**

The City of Hemet will continue to support homeless and public housing activities initiated and provided by the Housing Authority of the County of Riverside whenever possible. The Community Development Department of the City of Hemet continues to review zoning, city ordinances, and other internal processes with the focus on providing incentives to developers, reduction in neighborhood decay and blight, and property owner awareness of security for renters in extremely low, low to moderate census tract areas of the City.

### **Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

The Housing Authority operates on the premise that affordable housing is not the end goal for a family but a stepping stone to reach full sufficiency in market rate housing. The ultimate goal is for the agency's families to successfully graduate to homeownership. To actively engage residents in this goal, the agency has taken the following actions: ongoing outreach, engagement with onsite managers, and continuation of the Resident Opportunity and Self Sufficiency (ROSS) program.

### **Actions taken to provide assistance to troubled PHAs**

The Housing Authority of the County of Riverside ("HACR") is not a troubled agency and has been HUD rated as either a "High Performer" or a "Standard Performer" in the past 5 years.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

**Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

The City of Hemet will continue to support development of additional affordable ownership and rental units. Development of affordable housing requires substantial leverage of public funds, and multiple layers of funding are often needed to address the subsidies required. The City will continue efforts to implement strategies and strengthen alliances with its partners to expand affordable housing. Currently the City offers density bonus incentives for the inclusion of affordable housing in new housing developments and provides streamlined permit processing for affordable housing developments. The Planning Department continues to review and streamline its application process procedures.

**Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

The main obstacle to meeting underserved needs continues to be the availability of funding. The availability of both federal and state sources is a primary determinant in the ability of local jurisdictions to address identified needs. Federal and state funding of housing and community development programs continues to be reduced and future funding from traditional sources is debatable as lawmakers attempt to balance federal and state budgets. The City will continue to pursue all available sources of funding to address the needs of affordable housing and community development. The City of Hemet General Plan 2030 Housing Data (appendix C) discusses the need for smaller one to two bedroom units with 2010 statistics indicating 83% of non-family households consist of single persons and the largest percentage (43%) of family households consist of two persons. Hemet's median household income of \$49,901 in 2023 lagged significantly behind area cities of Temecula at \$121,795, San Jacinto at \$73,682, Perris at \$77,365, Moreno Valley at \$91,021, Lake Elsinore at \$109,010, and Riverside County median income of \$90,527. Identifying the type of housing needs aids the City in outreach to prospective developers. Annual application to CDBG for Senior and Disabled Home Rehabilitation grants to correct health and safety violations or provide ADA improvements for owner occupied very low and extremely low Hemet residents also assists with meeting underserved needs of the community.

**Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

The Consumer Product Safety Commission banned the use of lead-based paint in housing in 1978. According to the Department of Housing and Urban Development, approximately 35 million US homes contain lead paint. Any housing built prior to 1979 is considered to be at risk of containing some amount of lead-based paint. In particular, housing units constructed prior to 1950 have been found to have some of the highest levels of lead-based paint.

The City has not run into any lead-based paint issues at this time. Should an incident occur, the City would follow lead-based paint procedures such as: verify date home was built (pre-1979), will children under 6 be living in the home, inform client and property owner of lead-based paint requirements, conduct a visual

assessment of the property, identify risks and compare to 'de minimis' levels, and make assistance determination. The City will provide assistance to client and property owner to ensure lead-based paint is abated.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

The City of Hemet continues its efforts to reduce the number of families and individuals living in poverty. The City focuses on supporting programs that raise household incomes and stabilize housing situations. The City utilizes CDBG funds to support the continuation and implementation of affordable housing that help homeless persons make the transition to permanent housing and independent living.

Hemet will use resources from state, federal and private sources to provide a number of community-based and direct services aimed directly or indirectly at decreasing the poverty level. These programs include: job enrichment, development, and placement through education and economic development, food pantry programs, and programs designed to prevent and alleviate the devastating impact of domestic violence, which often plunge women and their children into poverty.

### **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

Identifying strengths and gaps provides a basis for cooperative strategies to fill gaps in the housing and community development delivery system. Focus on the institutional structure involves a broad strategy of coordination, empowerment, and communication with public, private, and non-profit sectors. Gaps in services, identified through the needs assessment process will be CDBG funded when innovative supportive services are presented during the annual funding process. CDBG funding will also be used to offset program delivery costs as appropriate.

City of Hemet staff maintain working partnerships with the Riverside County Employment Development Department, local financial institutions, school districts, community businesses, public agencies, and private partners such as Fair Housing Council of Riverside County and local nonprofits.

### **Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

The City continues to enhance coordination between public and private housing and social service agencies through collaboration with various local nonprofit organizations, the Housing Authority of the County of Riverside, the County of Riverside Economic Development Agency and other agencies that partner with the City to revitalize low income communities utilizing CDBG, mortgage revenue bonds, CalHome, and mortgage credit certificates.

The City as a collaborative partner of the CoC continues to play an important role in both facilitating and directly bringing together disparate interests to develop new or strengthen existing institutional structures, and enhance coordination between housing and service agencies. There are a variety of services for special needs populations and persons experiencing homelessness; however, major gaps in the service delivery system exist, including: inadequate funding to provide the level of services needed;

lack of coordination and communication among different agencies; and uneven geographic coverage of services, with some rural and remote communities being underserved.

**Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)**

The City of Hemet continues to collaborate with the Fair Housing Council of Riverside County (FHCRC) by providing grant funding to assist Hemet residents with comprehensive services which affirmatively address and promote fair housing (anti-discrimination) rights under three components of: education, training and technical assistance, and enforcement. FHCRC continues to provide First Time Home Buyers workshops to educate residents which include focus on the following impediments: Steering, Lending Practices, Brokerage Services, Appraisal Practices, and Home Owner's Insurance, and Property Management practices. FHCRC provides the dates of the workshops provided.

## **CR-40 - Monitoring 91.220 and 91.230**

**Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements**

It is the City of Hemet's responsibility, as a recipient of CDBG to monitor the subrecipient activities and determine whether its use of CDBG funding is appropriate and meets federal regulations. A monitoring process ensures that the City of Hemet meets its primary legal obligation to ensure that all subrecipients comply with all federal regulations governing the administrative, financial and programmatic operations, and achieve their performance objectives within schedule and budget.

The three most important strategies for effective monitoring are:

- On-site field visits during the program year;
- Open communication between City of Hemet staff and subrecipient staff; and
- Assisting subrecipients in creating effective and efficient record-keeping systems.

## **Citizen Participation Plan 91.105(d); 91.115(d)**

**Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

Based on Hemet's Citizen Participation Plan, the City met its public participation requirement concerning the funding of CDBG activities. The citizen participation process ensures that the City maintains priorities that benefit the jurisdiction as a whole and supports public service groups within the City including those that primarily benefit seniors, youth, persons with special needs, the disabled and the homeless.

The City prepared its Consolidated Annual Performance and Evaluation Report (CAPER) for the period of July 1, 2023 through June 30, 2024. Please see Appendix A for the public notices in English and Spanish notifying the public of the completion of the draft CAPER and the locations the CAPER is available for public review. Appendix B will contain any public comments received during the public noticing period. The public notice states CDBG funds were spent in accordance with the approved Five-Year Consolidated Plan and the 2023 Annual Action Plan, which primarily benefits low and moderate-income persons or households.

## **CR-45 - CDBG 91.520(c)**

**Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.**

The CAPER is prepared annually to capture progress toward meeting identified needs and achieving goals. The City has been successful in implementing its public improvement and community service projects and programs, as well as meeting the established objectives and foresees continued progress through the 2020-2025 Consolidated Plan and One-Year Action Plans. Key data related to each of the goals and outcomes are summarized in section CR-05. These accomplishment tables are generated to measure outputs and outcomes. HUD implemented this ongoing performance process to assess efficiency, cost effectiveness, and the impact of projects and programs in Hemet neighborhoods. As a result of monitoring performance measures, operational assessments, resource allocation issues, and policy questions can be identified and addressed in a timely manner. The City strongly supports and encourages community-wide participation, input, cooperation, and feedback from all residents. The City's Citizen Participation Plan allows for minor and technical amendments. Substantial amendments require approval by the City Council through a public notice and public hearing.

On May 28, 2024, the Hemet City Council approved the elimination of CDBG funding to the Code Enforcement Activity. This was due to concern of not meeting requirement of the HUD definition of blight/slum within the Code Enforcement program activity. The City will request approval from HUD if the City elects to allocate CDBG funding to Code Enforcement.

**CR-45 - CDBG 91.520(c)**

**Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.**

**Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?**

No.

**[BEDI grantees] Describe accomplishments and program outcomes during the last year.**

Not Applicable.

## CR-58 – Section 3

Identify the number of individuals assisted and the types of assistance provided

Total Labor Hours	CDBG	HOME	ESG	HOPW A	HTF
Total Number of Activities	0	0	0	0	0
Total Labor Hours	0				
Total Section 3 Worker Hours	0
