

City of Hemet Online Portal

Don't wait anymore! You can now find your permit and plan check status online thru the City of Hemet's online portal. The City of Hemet has implemented an online permit status portal where you can see the "real-time" status of your project. By utilizing the online portal for permit status, this will allow staff to process permit applications and submittals received by the City. Please visit our web site at <https://cohchcrweb.cityofhemet.org/eTRAKiT3/>

Please Note: When emails are received regarding plan check and permit status, clerical will provide you with the portal instructions. Not until the review is past due will staff look into the status of a permit. This will free up much needed staff time to work on processing the plan reviews and permits you are calling on. Please keep in mind that after a review is reviewed and returned from the City's consultants and other division the Building Division still needs to compile the data to send to the applicant.

Contractors and Licensed Professionals:

An account can be created for you which allows you to have a personal dashboard that will show all your current projects with the City. The account will allow you to:

1. Submit for new projects.
2. Resubmit corrections for existing projects.
3. See attachments and corrections related to your project(s).
4. Print permit copies and inspection cards.
5. Print approved plans.
6. Request inspections.
7. Cancel inspections.
8. Verify scheduled inspection window.
9. Review inspection history and results.
10. Coming Soon-Online Payments

Utilizing the online portal is the quickest way to submit and find permit and plan check status. To establish an account, please contact bldgstaff@hemetca.gov and we will contact you to set the account up.

Home Owners and other Applicants:

You can create a public account. Here you can search for your project address to find:

1. Permit status.
2. Verify scheduled inspection window.
3. Review inspection results.
4. Coming Soon-Online Payments
