

This election is about Public Safety, Quality of Life, Common Sense and Experience. I have always been in the majority vote to maintain strong, locally controlled Public Safety Services. Measure U has allowed us to keep that commitment to Public Safety.

We must continue to build on what we have achieved: a reduction in violent crime, improved technology and equipment to assist law enforcement and fire, paramedic staffing at all fire stations and improved safety services demanded by the public.

I am a retired business owner and Financial Manager who understands the importance of a vibrant economic development plan to provide jobs and shopping opportunities for the many people who call Hemet their home.

Bringing the community together to clean up neighborhoods and streets is a great beginning with the Adopt A Block program. Hemet needs the buy in of everyone to restore our Quality of Life and how we feel about our homes, our faith based communities, our schools, and our rich heritage.

Remember: It is harder to restore a masterpiece than to create a new painting. Hemet is a masterpiece worth restoring.

Vote Linda Krupa to restore our city, our community, and preserve our heritage.
